

Cambodia Service Trip
Email March 27th 2016

Dear Cambodia program students,

Please note the following as we continue preparations for our program this June:

- Our first orientation program will be this Wednesday, March 30th, at 6:30 PM in Lyndon North. Mrs. Kemezis will be in touch with you soon about a short project you will do with two or three team members to prepare a GoogleSlide about one aspect Cambodian culture and history for the orientation. She will give you more guidance about this, and you will be invited to join a Googledoc to post your 2 slides. We hope this will be an interesting and fun way to begin our exploration of Cambodia, and to begin to get to know each other.
- Our Wikispaces webpage <http://taborcambodia2016.wikispaces.com/> now has a “Trip Safety” link posted on the right side column. Please read the information. If you are a US citizen, please register your trip on the US State Department’s “STEP” website under your own name. Please check to make sure that your health insurance has coverage overseas. We will obtain emergency medical treatment and evacuation insurance for the group, but this is different than regular medical coverage.
- We hope to have more information soon on the kinds of work that we will be doing with the local community, including bridge building. We will share this with you as it becomes available.

See you Wednesday night!

Mr. DaSilva
Mr. Downes
Ms. Kemezis
Dr. Kistler
Mr. Sousa
Mrs. West
